All CIMA course work must be completed to fulfill graduation requirements.

Students must maintain a "C" average on CIMA platforms digital tests (75% +). Test scores are evaluated during scheduled progress reports, at which time students must have maintained a 75% average, or they may be placed on warning or withdrawn.

Health and Safety, comprehensive, and practical final exams will be administered to students. These tests must be passed **individually** with a "C" or above (75% +.) For students to complete and graduate their dedicated course they must complete all CIMA course work and final examinations.

In this circumstance the LOA would begin the first date the student was unable to attend classes.

Written request must include reason for the student's request and include the student's signature. The school administrator in writing must approve and be reasonably certain that the student will return from the approved leave of absence.

A leave of absence may be given for a maximum of 60 calendar days. **Extension, or additional LOA maybe requested due to extenuating circumstance such as (death, illness in family, pregnancy, pandemic), up to the discretion of the administrator, and not to exceed a total of 180 days.** A student **will not** be granted a LOA if the LOA, together with any additional LOA previously granted exceeds a total of 180 calendar days in any 12-month period.

Upon returning from a leave of absence, the student will resume the satisfactory/unsatisfactory progress status they had before they left. The student will be advised in writing on actions required to attain satisfactory academic progress by the next evaluation. If the student prevails upon appeal, the satisfactory academic progress determination will be reversed and federal financial aid will be reinstated, if applicable.

STUDENTS TUITION RECOVERY FUND

The State of California established the Student Recovery Fund (STRF) to relieve or mitigate economic loss suffered by a student in an educational program at a qualifying institution, who is or was a California resident while enrolled, or was enrolled in a residency program, if the student enrolled in the institution, prepaid tuition, and suffered an economic loss. Unless relieved of the obligation to do so, you must pay the state-imposed assessment for the STRF, or it must be paid on your behalf, you are a student in an educational program, who is a California resident, or are enrolled in a residency program, and prepay all or part of your tuition.

You are not eligible for protection from the STRF and you are not required to pay the STRF assessment, if you are not a California resident, or are not enrolled in a residency program.

It is important that you keep copies of your enrollment agreement, financial aid documents, receipts, or any other information that documents the amount paid to the school. Questions regarding the STRF may be directed to the Bureau for Private Postsecondary Education, 1747 N. Market Blvd. Suite 225, Sacramento, Ca 95834, (916)431-6959 or (888) 370-7589.

1. The institution, a location of the institution, or an educational program offered by the institution was closed or discontinued, and you did not choose to participate in a teach-out plan approved by the Bureau or did not complete a chosen teach-out plan approved by the Bureau.
2. You were enrolled at an institution or a location of the institution within the 120-day period before the closure of the institution or location of the institution or were enrolled in an educational program within the 120-day period before the program was discontinued.

4. The institution has been ordered to pay a refund by the Bureau but has failed to do so.

To qualify for STRF reimbursement, the application must be received within four (4) years from the date of the action or event that made the student eligible for recovery from STRF.

A student whose loan is revived by a loan holder or debt collector after a period of non-collection may, at any time, file a written application for recovery from STRF for the debt that would have otherwise been eligible for recovery. If it has been more than four (4) year period unless the period has been extended by another act of law.

However, no claim can be paid to any student without a social security number or a taxpayer identification number. Note: Authority cited: Sections 94803, 94877 and 94923, Education Code. Reference: Section 94923, 94924 and 94925, Education Code.

STUDENT'S RIGHT TO CANCEL AND REFUND POLICY

The student has the right to cancel the enrollment agreement and obtain a refund of charges paid through attendance at the first-class session (**first day of classes**), or the seventh day after enrollment (**seven days from date when enrollment agreement was signed**), whichever is later.

The notice of cancellation shall be in writing and submitted directly to the Financial Aid Office, a withdrawal may be initiated by the student's written notice or by the institution due to student's academics or conduct, including, but not necessarily limited to, a student's lack of attendance.

Refund Policy: After the cancellation period, the institution provides a pro rata refund of **ALL** funds paid for tuition charges to students who have completed 60 percent or less of the period of attendance. Once more than 60 percent of the enrollment period in the entire course has elapsed (**including absences**), there will be no refund to the student. If a student obtains a loan to pay for an educational program, the student will have the responsibility to repay the full amount of the loan plus interest, less the amount of any refund. If the student has received federal student financial aid funds, the student is entitled to a refund of monies not paid from federal student financial aid program funds.

A registration fee of \$ 100.00 **is a non- refundable item**. Equipment, books, supplies, tools, uniforms, kits, and any other items **issued and received by the student** would not be returnable. **Once received** by the student it will belong to the student and will represent a liability to the student.

If you cancel the agreement, the school will refund any money that you paid, less any deduction for registration fee and equipment received. If you withdraw from school after the cancellation period, the refund policy described above will apply. If the amount that you have paid is more than the amount that you owe for the time you attended, then a refund will be made within 45 days of the official withdrawal date. See the Refunds section below. If the amount that you owe is more than the amount that you have already paid, then you will have to arrange with the institution to pay that balance. Official withdrawal date is on the student's notification or school's determination.

Determination of withdrawal from school: The withdrawal date shall be the last date of recorded attendance. The student would be determined to have withdrawn from school on the earliest of:

- The date you notified the **Financial Aid Office** of your intent to withdraw. Only the financial office would be authorized to accept a notification of your intent to withdraw.
- The date the school terminates your enrollment due to academic failure or violation of its rules and policies stated in the catalog.
- The date you fail to attend classes for a period of 14 calendar days and fail to inform the school that you are not withdrawing.
- The date you failed to return as scheduled from an approved leave of absence. The withdrawal date shall be the last date of recorded attendance. The date of determination of withdrawal will be the scheduled date of return from LOA.

Return of Title IV: Special note to students receiving Pell/SEOG grants or other aid, if you withdraw from school prior to the completion of the equivalent to **60 percent** of the workload in any given payment period, a calculation using the percentage completed will be applied to the funds received or that could have been received that will determine the amount of aid the student earned. Unearned funds would be returned to the program in the order stated below by the school and/or the student. Student liability for loan funds will continue to be paid in accordance with the original promissory note terms. Funds owed by the student to the Grant programs are limited to 50% of the gross award per program received. Sample Calculation, completion of 25% of the payment period or enrollment period earns only 25% of the aid disbursed or that could have been disbursed. If applicable, this would be the first calculation to determine the amount of aid that the student would be eligible for from the Title IV Financial Aid programs. A second calculation would take place to determine the amount earned by the institution during the period of enrollment. If the student is eligible for a loan guaranteed by the federal or state government and the student defaults on the loan, both of the following may occur: (1) The federal or state government or a loan guarantee agency may take action against the student, including garnishing any income tax refund to which the person is entitled, to reduce the balance owed on the loan. (2) The student may not be eligible for any other federal student financial aid at another institution or other government assistance until the loan is repaid.

Refunds: If any refunds are due based on the Return of Title IV calculation **or** based on the institutional refund policy calculation, any refunds will be made as soon as possible but not later than 45 days from the determination of withdrawal date in the order stated in section CFR 34 section 668.22. The order of payment of refunds is:

- Pell Grant
- SEOG

Course Cancellation: If a course is cancelled after a student's enrollment and before instruction in the course has begun, the school shall provide a full refund of all money paid.

School Closure: If the school closes after a student's enrollment and before instruction in the course has begun, the school shall provide a full refund of all money paid.

GENERAL FINANCIAL AID INFORMATION FORWARD

This information has been prepared to supplement the "The Student Guide" handbook published by the United States Department of Education to help students and parents understand the financial aid process at this institution. We hope it will answer your questions and will make the financial aid process easier for you. Information on financial aid programs, how to secure them, how to apply, and student's rights and responsibilities as a recipient are also included in the following information. This information has been prepared in compliance with Title IV, Section 484(A) of the Higher Education Amendments of L980 to provide student consumers with information about financial aid. Other necessary information can be found prior to this information in this catalog.

COMPLIANCE STATEMENT

The Federal Privacy Act of 1974 requires that students be notified that the disclosure of his/her social security number is mandatory. The social security number is used to verify a student's identity, to process the awarding of funds, the collection of funds and the tracing of individuals who have borrowed funds from federal, state, or private programs.

FINANCIAL AID PHILOSOPHY

This institution believes that the talents, hopes, and ambitions of all people are among our nation's most valued possessions. With this thought in mind, this institution continues to promote grant opportunities for qualified, deserving students who must find funds to attend college. The fundamental purpose of this institution's financial aid programs is, therefore, to make it possible for students who would normally be deprived of a college education because of inadequate funds to attend college. The following principles have been adopted for our financial aid programs.

PRINCIPLES

- (1) This institution will collaborate with schools, community groups and other educational institutions in support of the national goal of equality of educational opportunities.
- (2) Expected family contribution toward the student's cost of education. This institution expects parents to contribute financially, according to their means. We consider their incomes, assets, number of dependents, and other relevant information. Students are also expected to contribute from their own earnings and assets, including borrowing against future earnings.
- (3) Financial aid will be offered after determining whether the family's resources are insufficient enough to meet the student's educational expenses. The amount of aid offered will not exceed the amount needed to meet the difference between the student's total educational expenses and the family's resources.
- (4) In awarding funds to eligible students, the amount and the type of self-help will be related to the circumstances of the individual and the largest amount of grant assistance will be offered to students with the least ability to pay.

FINANCIAL AID MECHANISM

Financial aid is a mechanism that reduces out of pocket costs that students and/or parents must pay to obtain a specific postsecondary education. Presented differently, financial aid is money made available to help students meet the cost of college attendance. Financial aid includes grants. Grants do not have to be repaid. Financial aid is awarded to students who have "need". Need is the difference between the amount of money that the family will be expected to contribute to meet student cost and the cost of education at this institution.

STUDENT ELIGIBILITY REQUIREMENTS

To be eligible for financial aid, a student must:

- *Be admitted as a regular student.
- *Be enrolled or accepted for enrollment in an eligible program on at least a half-time basis.
- *Be a citizen or an eligible non-citizen.
- *Not owe a refund on a Pell Grant or SEOG at any school.
- *Not be in default on a NDSL or GSL at any school.
- *Have financial need.
- *Be making satisfactory progress as defined by the school's policy and course of study
- *Be registered for selective service
- *Have signed a statement of educational purpose
- *Have signed an anti-drug certification
- *Have signed a statement of updated information.

AWARD CONCEPT, SELECTION OF RECIPIENTS AND PACKAGING CRITERIA

This institution emphasizes the SELF-HELP CONCEPT of student financial assistance. The SELF-HELP CONCEPT is on a first-come, first-served basis when awarding eligible applicants. The SELF-HELP CONCEPT list types of financial assistance in the following order:

1. Family contribution
2. Other resources
3. Pell Grant
4. Self help

DETERMINING NEED

The Uniform Methodology (UM) formulas is approved by the U.S. Department of Education. This school uses it to compute the ability of the student, and/or family, to contribute to the cost of the student's training.

Each year certain aspects of UM are adjusted. This accounts for both actual inflation in the previous year and projects inflation for the next analysis year. The yearly Customer Price Index (CPI) analysis determines inflation rates.

Revisions in FICA, federal, state, and local taxes reflect changes in the law and recently available IRS data.

The Pell Grant uses the (EFC) number on the Student Aid Report (SAR) to determine eligibility for the Family Contribution (FC) number obtained. This determines the student's (or family's) ability to contribute to the Cost of Attendance (COA).

The FC is based on information furnished in the Application for Federal Student Aid (FAFSA). The FC number produced is for nine months for Dependent students, and twelve months for independent students. In application, the FC number is pro-rated to the length of the defined Academic Year.

NEED ANALYSIS SYSTEM

The approved need analysis systems used by this Institution in determining the student's family contributions are:

INTEGRATED VERIFICATION PROCESS

INTRODUCTION

Federal regulations 34 C.F.R. Part 668, Subpart E, Dated March 14, 1986, executing legislation 20 U.S.C. 1094 governing the Title IV programs require schools to be sure of certain applicant-reported data. These regulations require schools to develop written policies and procedures for verification and make them available to all applicants for financial aid. It is also available to prospective students upon request. Procedures are a part of the Admission and Counseling process.

To follow regulations and achieve consistency governing this process, the following verification policy applies to all applicants for Title IV programs. Under the regulations, the school will not disburse Pell until completion of verification.

INSTITUTIONAL VERIFICATION POLICY AND PROCEDURES

What is verification?

The verification process is a process where the institution will require the student/spouse/parent to provide documentation to support the data reported on the FAFSA and printed on the SAR/ISIR. It is anticipated that about 30% of the students will be selected for verification by the United States Department of Education (USDE) via its contractor (CPS) or by the institution's financial aid Office.

How do I know that my application has been selected?

The verification flag will have a value of "Y," and next to the EFC will be an asterisk referring to a comment in the student section of the SAR that tells applicants they will be asked by their school to provide documentation.

For 2023-2024, verification tracking flags will place the student in one of five verification tracking groups, which will be explained later.

The institution must verify any information in which there is a reason to believe it is incorrect on any application. Students with these applications are considered to be selected for verification by your school even though you may not be verifying the same data as for CPS-selected applications.

The institution, at its discretion, may require a student to verify any FAFSA information and to provide any reasonable documentation in accordance with consistently applied school policies.

Regardless of whether the application was selected by CPS or by the institution, all other verification requirements, such as deadlines and allowable tolerances and interim disbursement rules, apply equally to all students who are being verified.

What Items need to be verified?

Once the student is placed in a group, each group contains different items that need to be verified.

Verification tracking groups

Students who are selected for verification will be placed in one of the five following groups, V1, V4, V5, V6. The group determines which FAFSA information must be verified for the student. The data to be verified would correspond to the data reported by the student, the student spouse and, if applicable, the parent whose data was also included in the FAFSA.

Verification tracking groups

The data to be reviewed will correspond to the data required in each of the following groups:

- V1 **Standard Verification Group.** Tracking flag V1
- V4 **Custom Verification Group.** Tracking flag V4.
- V5 **Aggregate Verification Group.** Tracking flag V5.
- V6 **Untaxed Income.** Tracking flag V6

Who can be excluded from the verification process?

- **Death of the student.**
- **Not an aid recipient.**
- **The applicant is eligible to receive only unsubsidized student financial assistance.**
- **Applicant verified by another school.** The student provides documentation that he/she completed the verification process for the current award year at another school before transferring.

The FAFSA data must be the same as it was at the previous school, and you must get a letter from that school stating that it verified the application and has provided the transaction number of the pertinent valid ISIR.

Post enrollment

The student was selected for verification after ceasing to be enrolled at your school and all (including late) disbursements were made.

Unless the FAO has a reason to believe it is inaccurate, you do not have to document the reported FAFSA information of the parents of a dependent student if any of the following apply:

- Both parents are mentally incapacitated.
- They are residing in a country other than the United States and cannot be contacted by normal means.
- They cannot be located because the student does not have and cannot get their contact information.

Unless the FAO has a reason to believe it is inaccurate, you do not have to document the reported FAFSA information of the spouse of an independent student if any of the following apply:

- The spouse has died.
- He/she is mentally incapacitated.
- He/she is residing in a country other than the United States and cannot **be contacted by normal means.**
- The spouse cannot be located because the student does not have and cannot get the spouses' contact information.

What documentation is needed?

Documenting Family income and tax paid

The Department encourages students and parents to use the FAFSA/IRS Data retrieval Tool (IRS DRT). For the retrieved data to be acceptable documentation of tax data, it is necessary that neither students nor parents change the data after it is transferred from the IRS—if the data was changed or if your FAO has a reason to believe the data transferred is incorrect, the student will need to provide other documentation as explained below. The IRS request field(s) on the ISIR will have a value of “02” when the data is unchanged.

If students cannot or will not use IRS Data Retrieval, either at initial FAFSA filing or through the FOTW correction process, they must document AGI, taxes paid, and untaxed income by providing an IRS tax return transcript for the student and spouse or parents, as applicable.

Under the following conditions the IRS Data Retrieval is **not** available in FOTW (all apply to both students and parents unless otherwise noted):

- The person did not indicate to the FAFSA that the tax return has been completed.
- The marriage date is January 2022 or later.
- The first three digits of the SSN are 666.
- The tax return was amended.
- The person filed a Puerto Rican or foreign tax return.
- The person is married and filed the tax return either as head of household or married but filing a separate return.
- Neither married parent entered a valid SSN.
- A non-married parent or both married parents entered all zeroes for the SSN.

Tax filing extension

For students and parents who have been granted a tax filing extension, need to present a copy of IRS Form 4868, *Application for Automatic Extension of Time to File U.S. Individual Income Tax Return*. Must also provide a copy of all their W-2 forms or, if they are self-employed, a signed statement with the amount of their AGI and their U.S. income taxes paid.

You may be requested to use the DRT or submit to your school a tax transcript after the return has been filed. If you do that, you must re-verify the income information.

Non-Tax filers

For non-tax filers you must receive a W-2 form for each source of employment income. You must also get a signed statement providing the sources and amounts of the person's income earned from work not on W-2s and certifying that the person has not filed and is not required to file a tax return. Provide a letter of non-tax filing from the IRS.

Residents of Pacific Islands

For residents of the Freely Associated States (the Republic of the Marshall Islands, the Republic of Palau, or the Federated States of Micronesia), a copy of the wage and tax statement from each employer and a signed statement identifying all the person's income and taxes for the year is acceptable.

Persons from a foreign country not required to file a tax form

Persons from a foreign country who are not required to file a tax return can provide the signed statement certifying their income and taxes paid.

Missing W-2 forms

If a person who is required to provide a W-2 form can't do it in time, you may be permitted to submit a signed statement with the amount of the income earned from work, the source of that income, and the reason the W-2 form is not available in time.

Persons filing foreign taxes

When a person filed a non-U.S. tax return, obtaining an IRS tax return transcript is not possible. In those cases, you may accept instead of the transcript a copy of the tax return, which must be signed by the filer or one of the filers of a joint return, and you must document the circumstances.

Use the income and tax information that most closely corresponds to the information on the IRS tax return and convert monetary amounts into U.S. dollars as appropriate.

Electronic signatures

On the few occasions that a tax return was used to complete verification, your school can accept an electronic copy of the return that has been electronically signed provided your school's process for accepting such signatures complies with the Electronic Signatures in Global and National Commerce (ESIGN) Act. **But a signature on Form 8879, the IRS e-file Signature Authorization, is not an acceptable substitute for a signature on the tax return.**

Tax Preparers

For persons who have a tax professional prepare their return, instead of a copy of the return with the filer's signature, your FAO may accept one that has the name and Preparer Tax Identification Number (PTIN) of the preparer or has his SSN or EIN and has been signed, stamped, typed, or printed with his name and address. Note that the IRS requires paid preparers to have a PTIN.

When a tax return transcript is unavailable

When the tax filer requests an IRS tax return transcript and is unsuccessful, they can use a signed copy of the 2020 tax return (Form 1040, 1040A, or 1040EZ) for verification. They must also provide your school with one of the following:

- if they tried to get the transcript using the paper Form 4506-T or 4506T-EZ, a copy of the response (which they must sign) mailed to them informing them that the IRS could not provide the transcript; or
- if they tried to get the transcript using the Internet, a signed copy of a screen print from the official IRS webpage showing a message that the transcript request was unsuccessful.

Because the IRS does not send written confirmation of the failure of a transcript request using the telephone, there is no documentation alternative for that method. Affected tax filers **must** request a tax return transcript using either the online or paper method and, if unsuccessful, provide your school with the above noted documentation.

In addition to the documentation already specified, the tax filer must also provide your school with a completed and signed IRS Form 4506-T or 4506T-EZ that includes on line 5 the name, address, and telephone number of your school as the third party to whom the IRS is to mail the tax return transcript.

If your school has no reasonable doubt about the accuracy of the information on the copy of the tax return, your school should proceed with verification and simply place the 4506 forms in the student's file rather than sending it to the IRS.

However, if your school has a reason to believe that the information on the tax return may not be accurate, **your school must**, before verification can be completed, send the Form 4506-T or 4506T-EZ to the IRS and wait for the return of the transcript or confirmation from the IRS that a transcript is not available for that tax filer. See the 11/2/12 electronic announcement for more information.

Requesting a tax transcript

There are a few ways to request a tax transcript: online at www.irs.gov, by calling 1-800-908-9946, or by mailing or faxing the paper Form 4506T-EZ, which can be printed out from the IRS website on www.ifap.ed.gov for specific instructions.

Filing an amended return

Students or parents who file an amended return cannot use the IRS DRT, and if they amend the return after using the DRT to fill out the FAFSA, the FAO cannot rely on that data. Instead, you will need to use information from these documents to complete verification:

1. a signed copy of the IRS Form 1040X that was filed **and**
2. a signed copy of the original tax return that was filed, a tax return transcript (which does not have to be signed), or any IRS transcript (such as a return transcript for taxpayer or RTFTP) that includes all the income and tax information required to be verified: AGI, income tax paid, education credits, etc.

Household size

To document the household size, the student needs to provide a signed statement and, if dependent, at least one parent that gives the name, age, and relationship to the student of each person in the household. You do not have to verify household size in the following situations:

- For a dependent student, the household size reported is **three** for married parents or **two** for a single, divorced, separated, or widowed parent.
- For an independent student, the household size reported is two if he is married or one if he is single, divorced, separated, or widowed.

Number in college

You can document this item with a statement signed by the student (and, if e is dependent, at least one parent) that gives the name and age of each person in the household who is enrolled at least half time in an eligible college (excluding, of course, the parents of dependent students). The statement must also give the name of each college, and it can be written to document household size as well. Completion of the Department's verification suggested text can satisfy both items.

If your school has a reason to doubt the enrollment information reported, your school must obtain from each school a statement that the named person will attend there on at least a half-time basis. Your school would not have to get such a statement if the person has not yet registered, is attending less than half the time, or will be attending your school.

If your school has a reason to doubt whether a reported school is Title IV-eligible, your school must insure it is, such as by checking to see if it has a federal school code.

SNAP benefits (food stamps)

If the ISIR shows that someone in the parents' or student's household received SNAP benefits in 2021 or 2022, the student must provide a signed statement indicating receipt of the benefit. If your school has a reason to doubt the receipt of SNAP benefits, your school may require the student to show documentation from the agency that supplied the benefit or alternative documentation you find sufficient.

Child support paid

If the ISIR shows that the student or parent paid child support in 2021, the student must provide a statement signed by him/her or, if he/she is a dependent, either parent and giving the annual amount of the support, the names of those who paid it and whom it was paid to, and the name(s) of the child(ren) for whom it was paid. If your school believes the information in the signed statement is inaccurate, the student must provide documentation such as a copy of the separation agreement or divorce decree that shows the amount of child support to be provided, a statement from the person receiving the child support showing the amount provided, or copies of the child support checks or money order receipts.

If the student reports on verification and documents that the spouse, or a parent paid child support but did not report that on his/her FAFSA, you must resolve the conflict. However, if the student was eligible for an automatic zero EFC, the child support paid question would not have been presented on FAFSA on the Web; as long as the student is still eligible for an auto zero EFC, there is no need to correct the child support field on the application.

High school completion

Students must provide one of the following documents that indicate their high school completion status at the beginning of the 2023-2024 year:

- A copy of a high school diploma.
- A copy of a final, official high school transcript that shows the date when the diploma was awarded.
- A copy of a General Educational Development (GED) certificate or GED transcript.
- An academic transcript that indicates the student successfully completed at least a two-year program that is acceptable **for full credit toward a bachelor's degree**.
- A copy of a secondary school completion credential for homeschool (other than a high school diploma or its recognized equivalent) if state law requires homeschooled students to obtain that credential.
- A transcript or the equivalent, signed by the parent or guardian of a homeschooled student that lists the secondary school courses the student completed and documents the successful completion of a secondary school education in a homeschool setting.

Identity and statement of educational purpose

Students should appear in person at the school and present a valid, government-issued photo identification (ID) such as a passport or a driver's license or other state-issued ID.

- Your school must maintain an annotated copy of that ID that includes the date it was received and the name of the person your school authorized to receive it.
- Students must also sign a statement of educational purpose that certifies who they are and that the federal student aid they may receive will only be used for educational purposes and for the cost of attending the school for the 2023–2024 year.
- A student who is unable to appear at the school must sign and submit the statement of educational purpose, and he must submit a copy of his ID with the statement signed by a notary public confirming that the student appeared before her and presented the ID confirming his identity.

Updating Information

A student cannot update information that was correct as of the date the application was signed. After the FAFSA is signed, only certain items can be updated under the conditions given below.

1. All applicants whose dependency status changes must update that status and the associated FAFSA information throughout the award year except when the update is caused by a change in the student's marital status.
2. All applicants selected by the Department or a school for verification of household size or number in college must update those numbers to be correct as of the date of verification **unless** the update is due to a change in the student's marital status. At your schools' discretion your school may update under either 1 or 2 even when the update is due to a change in the student's marital status if you deem it necessary to address an inequity or to reflect more accurately the applicant's ability to pay.

Verification forms, documentation

Be sure that the institutional verification document is signed, that all required sections are completed, and that the relevant tax or alternative documents are attached.

Timing of signatures

Any required signatures, such as signatures on worksheets or on copies of tax returns, **must be collected at the time of verification—they cannot be collected after the verification deadline for that award year.**

Interim Disbursements

If the student is selected for verification on the original ISIR, Interim disbursements **ARE NOT** allowed prior to the completion of the verification process.

How to submit corrections and updates

- Corrections and updates can be submitted by the student on the SAR or the Web or by the school using FAA Access to CPS Online or the Electronic Data Exchange (EDE).
- Using FAFSA on the Web (FOTW)
- Any student who has a PIN—regardless of how he originally applied— may correct any of his own data by using FAFSA on the Web at **www.fafsa.gov**. If dependent students need to change parental data, a parent must either sign electronically with her own PIN or print out and sign a signature page.

Deadlines and failure to submit documentation

Students selected for verification—whether by your school or by the Department—need to submit the documentation by the 60th day after student's last day of recorded attendance or by the Department's deadline.

EFC changes and changes on Title IV awards

Students making changes to their data because of the verification process that resulted in a change to the EFC or a change to the Title IV awards would be notified by the school via a revised award letter. The method used by the institution to deliver the first award letter will be used for subsequent notifications.

Failure to submit documentation

From the time the student is selected for verification By the Department or by the school, the student that fails to complete the verification process will lose his/her eligibility for Title IV funds. If the student received aid prior to being selected, that aid remains as an eligible disbursement. Once selected on a subsequent ISIR, all future disbursements will depend on the completion of the verification process.

Referring students to the Office of Inspector General (OIG)

The institution has an obligation to refer certain cases where the institution believed that intentional fraud seems to have taken place to the Office of the Inspector General (OIG). Those cases would be followed up by OIG as appropriate.
